

ATTENTION TO DUTY BY GOVERNMENT OFFICERS.—The Hon. R. McClelland, Secretary of the Interior, has issued a circular to all the officers employed in his department, informing them that constant attention to their respective duties is expected and required, and that hereafter any unauthorized absence from their posts will be deemed sufficient cause of removal. The Secretary further states, in view of the fact that officers frequently apply for leave of absence on the ground that the public interest is committed to them, and requires their presence at the seat of government, that, in his opinion, such necessity can rarely, if ever, exist, mail facilities of the United States being sufficient for all practical purposes of official intercourse.
